

WHAT IS DANCE JAM?

Our mission is to inspire the love of dance to boys and girls from Kindergarten to Year 6 by delivering high impact, high energy, and maximum fun dance programs in their own school setting.

Our DANCE JAM programs have been carefully constructed by highly experienced, qualified & passionate team of dance educators with over 30+ years' experience in the dance & entertainment industry.

With a strong background and understanding of the human anatomy & physiological benefits of exercise, our creative dance programs promise a great workout! Each year group will receive a 30 minute session of high energy hip hop & funk based dance routines to a selection of popular and engaging age appropriate music.

Children learn to express their emotions through movement, and the focus that dance demands can help them form stronger identities and find greater joy in their lives. Children will also benefit from dance classes by;

- Improving physical health
- Enhancing emotional development
- Encouraging socialisation
- Encouraging creativity
- Enhancing cognitive & motor development

By nurturing the love of dance from an early age, we aim to help motivate kids to be active and to stay active as adults.

MEET THE DIRECTOR

Melissa Sgro was trained in Perth under the Commonwealth Society Of Teachers Of Dancing (CSTD) from an early age studying in modern jazz, tapping, acrobatics, classical ballet & musical theatre. She discovered her passion for dance education in her teens and began to teach a wide variety of dance styles to students of all ages & abilities.

Melissa enjoyed a busy career competing at prestigious state competitions, excelling in dance examinations, performing in many Musicals, conventions, eisteddfods, concerts & cheerleading for some of Perth's most high profile sporting teams.

At age 19 she became the director of her own dance studio, and in the same year, began a Sports Science degree at ECU to extend her studies on the functioning human body and how it's anatomy and physiology directly related to that of a dancer.

Upon completing her Full Teachers Diploma (CSTD theatrical) & graduating university with a BSc, Melissa went on to study a post graduate degree (Masters of Exercise Physiology) with a keen focus of the effects of anaerobic exercise on childhood obesity. The development of her thesis fuelled her desire to get all kids active & moving, and to help keep that passion alive into their adult lives through dance.

In 2010, 2013 & 2016 Melissa co-ordinated & directed a number of highly specialised dance performances on the incredible Disneyland stages in California; Universal studios in L.A. and on Hollywood Blvd Walk of Fame for over 60 students. Since 2003, Melissa has been the artistic director of the studio's annual dance productions, and has choreographed dozens of state title championship troupes at various dance competitions.

Melissa thrives on her busy schedule as dance studio director, wife, mother, advocate for safe dance practices, is a passionate dance educator, and wants everyone to be able to experience the love of dance.

OUR INSTRUCTORS

All of our DANCE JAM instructors are highly experienced, qualified & passionate dance educators with over 30+ years' experience in the dance & entertainment industry both as performers and teachers.

All staff have current WWC clearance, Senior First Aid qualifications & insurance and are highly motivated, engaging and reliable.

Our instructors come to your school to deliver a 30 minute dance and exercise program to boys and girls from Kindergarten to Year 6. Programs run for 8-10 weeks (depending on your school term dates) with an end of term concert presented to parents, teachers & students upon completion. Our instructors are also available for choreography for school productions, liturgical movement, eisteddfods and more.
